

Employee Handbook: Remote Work Policy

1. Eligibility

Full-time employees who have completed their 90-day probationary period are eligible to request a remote work arrangement. Eligibility is subject to manager approval and role suitability. Roles requiring regular on-site equipment access (e.g. Manufacturing, Facilities) are not eligible for full-time remote arrangements, but may qualify for occasional remote days.

2. Work Hours and Availability

Remote employees are expected to be available during core hours of 10:00 AM to 3:00 PM in their assigned time zone. Outside of core hours, employees may adjust their schedule with manager agreement, provided they meet weekly deliverables and attend required meetings.

3. Equipment and Expenses

The company provides a laptop, monitor, and standard peripherals for remote employees. A one-time home office stipend is available to cover ergonomic equipment such as a chair or desk; employees should submit receipts through the Expense Portal within 60 days of purchase. Internet and utility costs are the employee's responsibility and are not reimbursed.

4. Security Requirements

Remote employees must connect to internal systems only through the company VPN, keep company devices updated with the latest security patches, and may not use personal devices to access confidential customer data. Shared or public Wi-Fi networks should be avoided for work involving sensitive information; a personal hotspot is preferred when working outside the home.

5. Performance Reviews

Remote employees are evaluated using the same performance criteria as on-site staff, focused on outcomes and deliverables rather than hours logged. Managers are expected to hold at least one 1:1 check-in per week with each direct report working remotely.

6. Policy Review

This policy is reviewed annually by the People Operations team. Employees may request exceptions to any provision above by submitting a written request to their manager and HR Business Partner for joint approval.
